Stop at Isle do Sol for a private picnic and maybe spot the snub-nosed Calaveras - the world's largest rodents - in their natural habitat. A tour covering the outstanding points of interest: “9 de Julio” Avenue; Colon Theatre (Opera House); San Telmo neighbourhood, birthplace of the city; May Avenue and Square, historical and political centre; La Boca district, famous for “Caminito” street; Recoleta district, known for its cemetery and Palermo, wide and beautiful park located in the heart of one of the most elegant areas in the city.

No visit to Buenos Aires is complete without dinner and a tango show! We would recommend the one at Esquina Carlos Gardel...

Buenos Aires is the birthplace of Tango, born in the brothels of the city, just before the beginning of the 1880s century. The word 'Tango' refers to both a musical style and the dance performed to it. Tango, a dance known as passionate, sensual and very elegant, was all the rage in the 1930's in Buenos Aires and Paris. Tango is not only a dance but also an obsession. For the 'tanguero', it is as much a part of life as eating and sleeping. Erotic and passionate, haunting and melancholic, it involves not only the body but also the soul. Yes, it is just feeling - but in one dance, you can express sad, happy, and angry, relax, deep, shallow, cheerful, sorrow, painful, serious, intellectual or just playful feelings. Tango has captured the popular imagination for over one hundred years to become no less than an international cult.
