MARRAKECH–Horse drawn carriage ride to the gardens, design your own perfume & private visit to the Photography house

Enjoy a horse-drawn carriage ride, you start with the Menara Gardens, where serenity and comparative coolness makes it one of the most pleasurable and romantic places for taking a stroll in Marrakech. Planted with olive-trees, some of which are more than 100 years old, the appeal of the Menara garden lies in its central part. Its large central lake was dug in the 12th century at the time of Almohade. On one side, there is a harmonious Saadian style pavilion that was built at the end of the 19th century.

Continue to the Majorelle Gardens, created in the 1920's by the French painter Jacques Majorelle. Built around a small Art Deco workshop and painted a bright blue. Majorelle is a very unique and special blue and is now a trademark name. It also contains a memorial to the Algerian born French designer Yves Henri Donat Mathieu–Saint-Laurent, also known as Yves Saint Laurent. He often visited the gardens to find inspiration and refuge, following his requests he was cremated and had his ashes dispersed there.

Move ahead to the Andalusia gardens. Discover the marvelous gallery exposing a collection of more than fifty Moroccan artists. Enter the beautifully designed enchanting Andalusia gardens. Behind the gardens push a small door and the owner's private secret grounds are revealed. In his studio discover musk, lavender and jasmine to design your very own perfume, under the direction of Mr. Benchabane the artist who produced the famous "Soire de Marrakech" perfume.

Later in the evening, a private visit to the Photography House opened just for you, animated by the curator of this fabulous place. A romantic dinner & wine on the terrace will be organised and animated by lights.
